

AMERICAN Storm

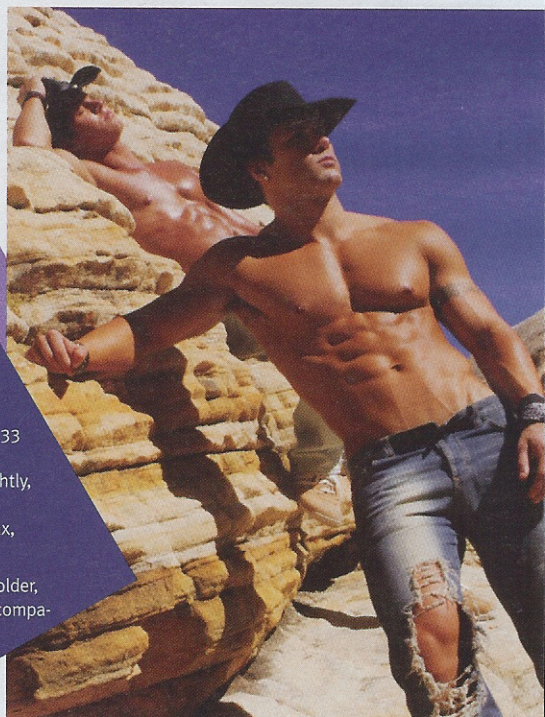

is Heating Up the Strip

By Robyn Andrezczak

The production company that produces the internationally acclaimed Australia's Thunder From Down Under, SPI Entertainment Inc., has brought another hit to Las Vegas. American Storm will take you on a journey through American history with this all male extravaganza. Performing inside the intimate Le Bistro Theater, the show allows for the audience to have "a more up close and personal experience," said creator Billy Cross.

Winners of the VH1 hit reality show "StripSearch", Ryan Westerburg, Josh Hall, David Nieves, Sean Cassidy, Terry Cress and Tony Cress, perform live in this steamy show on the Strip. Watch as your fantasies come to life through these amazing men and incredible music. The show begins during the time of cowboys and Indians, then moves on to Al Capone, the 60's, the business world and ends with a patriotic salute. You can even hang out and meet the guys after the show. Sit back and enjoy the history lesson.
